DISCLAIMER

This presentation is intended solely for informational purposes and is not an offer or solicitation to buy or sell securities. Valereum Plc and its representatives are not providing, and do not offer, investment, legal, or tax advice. Investors should consult with their own advisors before making any investment decisions.

Past performance is not indicative of future results. The value of investments can fluctuate and may result in losses. Investing in securities involves risks, including the potential loss of principal. Valereum Plc does not guarantee the accuracy or completeness of any information provided in this presentation.

The information contained herein may include forward-looking statements, which are subject to risks and uncertainties. Actual results may differ materially from those expressed or implied in such statements. Valereum Plc undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Investors should conduct their own due diligence and carefully consider their investment objectives, risk tolerance, and financial situation before investing. Any reliance on the information provided in this presentation is at the investor's own risk.

By accessing this presentation, investors acknowledge that they have read, understood, and agree to be bound by this disclaimer. They further acknowledge that they are responsible for compliance with any applicable laws and regulations in their jurisdiction.

ROADMAP FOR GROWTH: VLRM CAPITAL

- VLRM Capital will be an investment vehicle managing both VLRM's own funds and third party capital, targeting above market returns, including but not limited to the following investment strategies:
 - **Principal Trading**
 - Principal trading in highly liquid securities to generate above market returns
 - Principal trading in crypto futures to generate above market returns
 - **Yield Generation**
 - Yield farming generating yields within the expansive DeFi landscape globally, offering the potential to earn above-average yields by staking digital assets within specialised DeFi and CeFi protocols
 - Node Operation generating returns by running nodes on third party blockchains (outsourced)
